(54) Title: CONTAINER ASSEMBLY

(57) Abstract: This invention relates to a container assembly and more particularly, but not exclusively, to a container assembly for holding a prize inside a container. The container assembly includes a container body (2) defining a main compartment. A hollow insert (8) is located in the main compartment (4) to form a secondary compartment (5) within the main compartment (4). A liquid is sealed inside the secondary compartment (5) and the container body (2) has a lid (3) closing the main compartment (4).
